**Attachments:** FW: USS Lead Daily Zone 3 Field Progress Report 8-07-17; USS Lead clean properties 4.26.17.xlsx; USSLead\_Z2\_Z3\_Info\_for\_East\_Chicago\_2016\_042517.xlsx

Rocky,

Per our earlier call, attached is some information regarding property status in Zone 2 and 3.

- 1) Spreadsheet named "USS Lead Clean Properties 4.26.17". There are 3 tabs to this spreadsheet: (1) sampled, clean; (2) no soil, not sampled; (3) fully remediated.
- 2) Spreadsheet named "USSLead\_Z2\_Z3\_Info\_for\_East\_Chicago\_2016\_042517". This spreadsheet contains the properties in both Zones 2&3 that were remediated in 2016.
- 3) USS Lead Daily Zone 3 Field Progress Report

I spoke with Sarah and discussed your specific question about the status of our remediation work on the 4700 and 4800 blocks of Parrish, and the properties slated for excavation on those blocks have not yet started. Those properties have a forecasted start date in September and October.

Thx  
Dan
